

# 4 MAIN STEPS OF AN ATE EVALUATION

## 1. Asking important questions

about a project's processes and outcomes.

## 2. Gathering evidence

that will help answer those questions.

# EVALUATION

A faint, light gray illustration of an elephant's head and trunk, facing left. The word "EVALUATION" is centered over the elephant's trunk area. Two large, teal-colored curved arrows are positioned on either side of the elephant's head, pointing towards each other and the central text.

## 4. Reporting and using results

for accountability, improvement, and planning.

## 3. Interpreting findings

and answering the evaluation questions.

# EVALUATION STEPS- DETAILS

## 1. Asking important questions

- Goal achievement
- Implementation
- Outcomes
- Sustainability

## 2. Gathering evidence

- Research methods
- Institutional data
- Course evaluations
- Expert feedback

# EVALUATION

A faint, light gray illustration of an elephant's head and trunk, facing left, serves as a background for the central text.

## 4. Reporting and using results

- Improvement
- Planning
- Accountability
- Evidence of capability
- Build knowledge base

## 3. Interpreting findings

- Strength and weaknesses
- Extent, direction, and importance of outcomes
