making sense

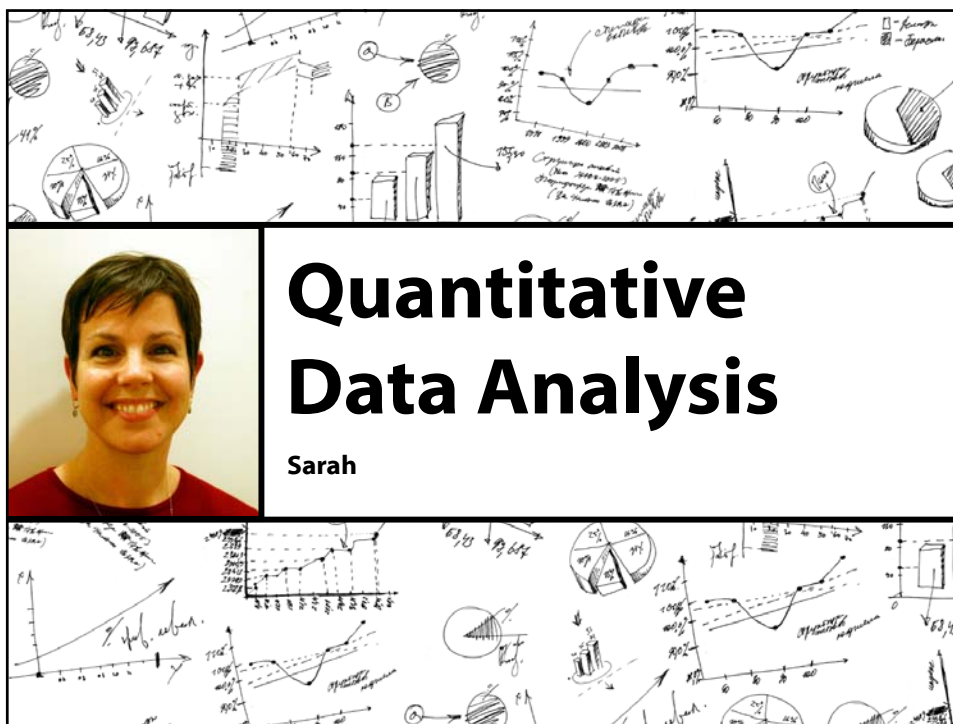

Objectives

Lori

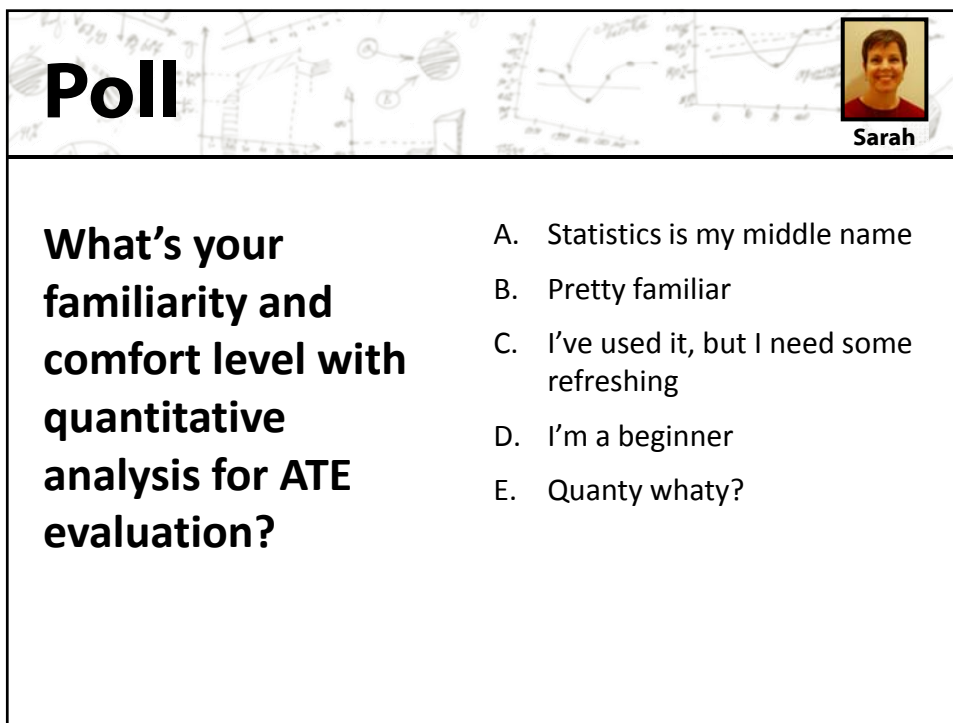

By the end of this webinar, you will

- Understand the fundamentals of quantitative data analysis
- Know how to systematically analyze qualitative data
- Be able to use website data for evaluation
- Know how to integrate findings from multiple sources of data

Quantitative Data Analysis

Sarah

Poll

Sarah

What's your familiarity and comfort level with quantitative analysis for ATE evaluation?

- A. Statistics is my middle name
- B. Pretty familiar
- C. I've used it, but I need some refreshing
- D. I'm a beginner
- E. Quanty whaty?

Descriptive Statistics

Sarah

Aren't descriptive statistics just baby statistics?

Only if they're describing babies.

When do I get to use inferential statistics?

When you have something to infer.

Why don't I have anything to infer?

Because you're (probably) examining the whole population.

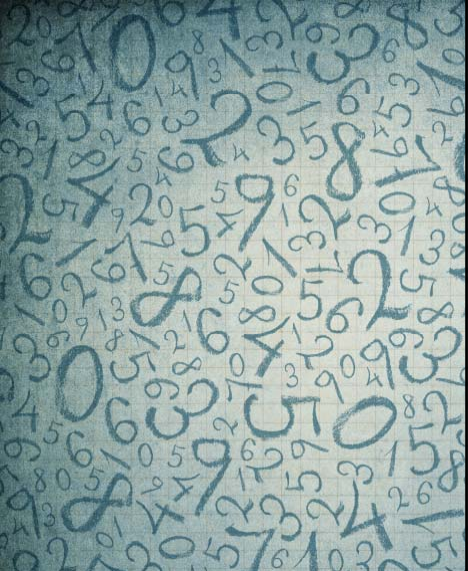

Clean Up Any Messy Data

Sarah

- Strange values
- Extreme outliers
- Contradictory responses

Strange Values

Sarah

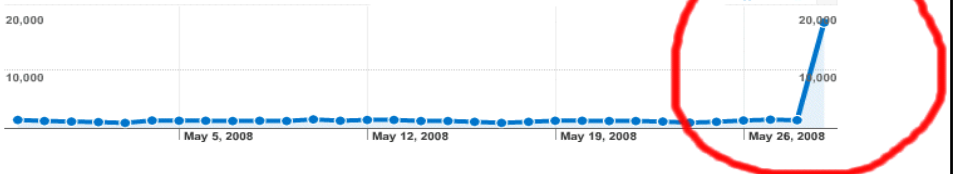

Q: What was your firm's average employment in 2010? **A: 50**

Q: What is your firm's projected average employment for 2011? **A: 750**

Dashboard

My Analytics Accounts:

Apr 29, 2008 - May 29, 2008
Comparing to: Site ?

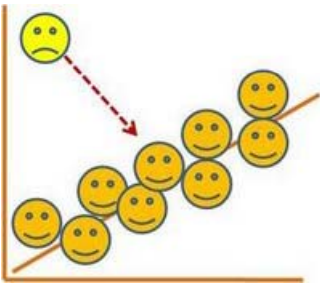

Date	Visits
May 5, 2008	~1,000
May 12, 2008	~1,000
May 19, 2008	~1,000
May 26, 2008	~20,000

Outliers

Sarah

Q: How many credits did you earn in the Spring 2010 semester? **A: 150**

Internal Contradiction

Sarah

Q: Please indicate your agreement with the following statements (1=strongly disagree, 2= disagree, 3=neutral, 4=agree, 5=strongly agree)

- The program met my expectations. **A: 1**
- The program served my needs. **A: 1**
- I would recommend this program. **A: 1**

Q: Any additional comments?

A: This program is A #1! Tops! Aces! Primo! It met my needs, served my expectations, and I will recommend it! I strongly agree!

Correcting Errors

Sarah

- No standard for corrections
- Correct if intent is clear
- Otherwise – call it missing

Missing Data

Sarah

- No standard for “too much missing”
- BUT: under 5%, don’t worry

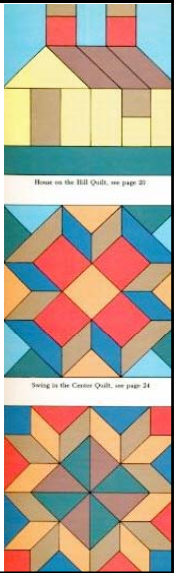

**Most important consideration:
Is there a pattern?**

Missing Data Patterns

Sarah

- Process patterns
 - Survey length
 - Confusing questions
 - Conditions of survey completion
- May need to eliminate items
- Content patterns – more interesting and troublesome

Content Patterns

Sarah

Q: What is your yearly income?

	Answered	Didn't answer
Men	56%	44%
Women	74%	26%
All	65%	35%

Coping with Missing Data

Sarah

- Listwise deletion – not recommended
- Pairwise deletion – sometimes recommended
- Estimation
 - Mean substitution – not recommended
 - Imputation – sometimes appropriate

Bottom line:
Explain and defend your choice

Show Your Work

Sarah

Wrong

	Mean Annual Income
Men	\$32,741
Women	\$27,602
Total	\$30,172

Note: data manipulated using wishful thinking and a Magic 8 Ball

Right

	Mean Annual Income
Men (n = 56; 56% response rate to item)	\$32,741
Women (n = 74; 74% response rate to item)	\$27,602
Total (n = 130; 65% response rate to item)	\$29,816

Note: non-responses determined to be missing completely at random; missing values estimated by multiple imputation. See Appendix C for formulae, calculations, and extended explanation.

OK

Sarah

Data neat and clean...

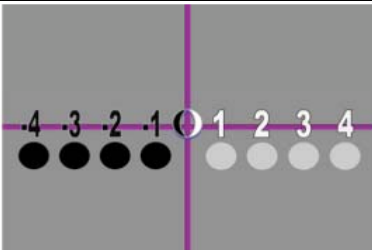

... now what?

Data Types

Sarah

Continuous
inherently numeric
(height, weight, test scores)

Categorical
represents mutually exclusive categories
(gender, political party, ice cream flavors)

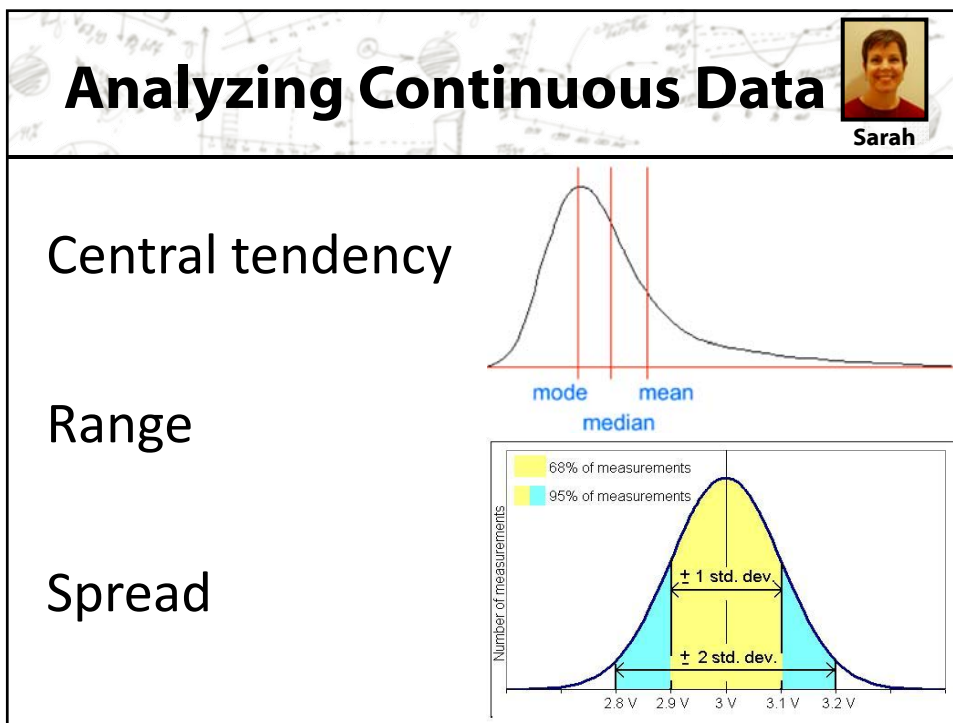

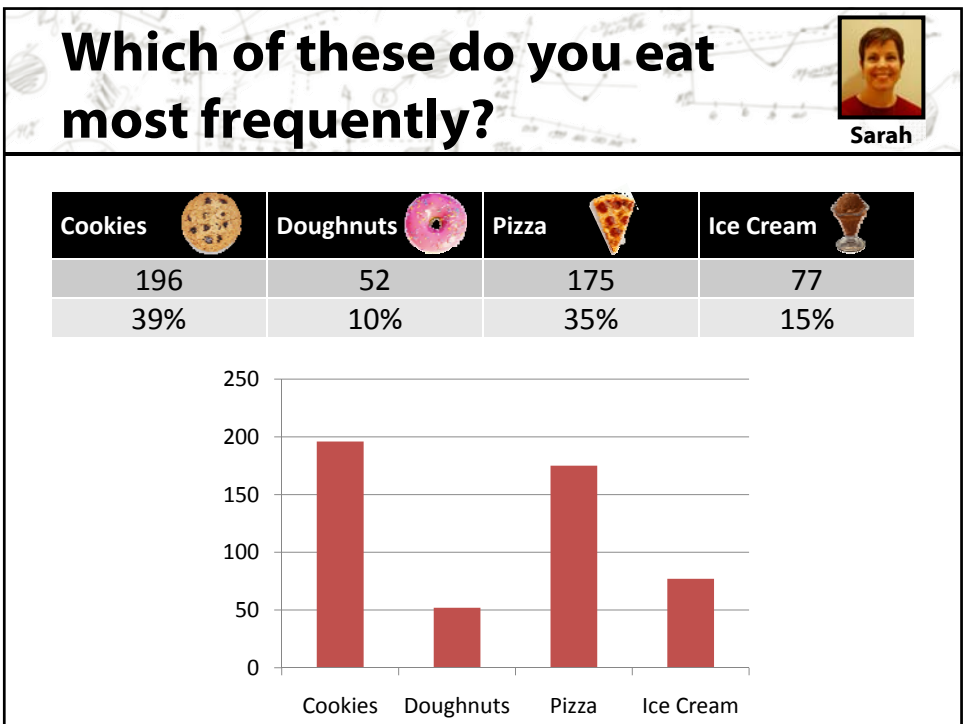

Continuous Data

Sarah

Snack Foods and Rates of Consumption by Age		
Snack	18 - 39	40 +
Number of doughnuts 	8	14
Pounds of cookies 	3	5
Slices of pizza 	15	22
Pints of ice cream 	6	12

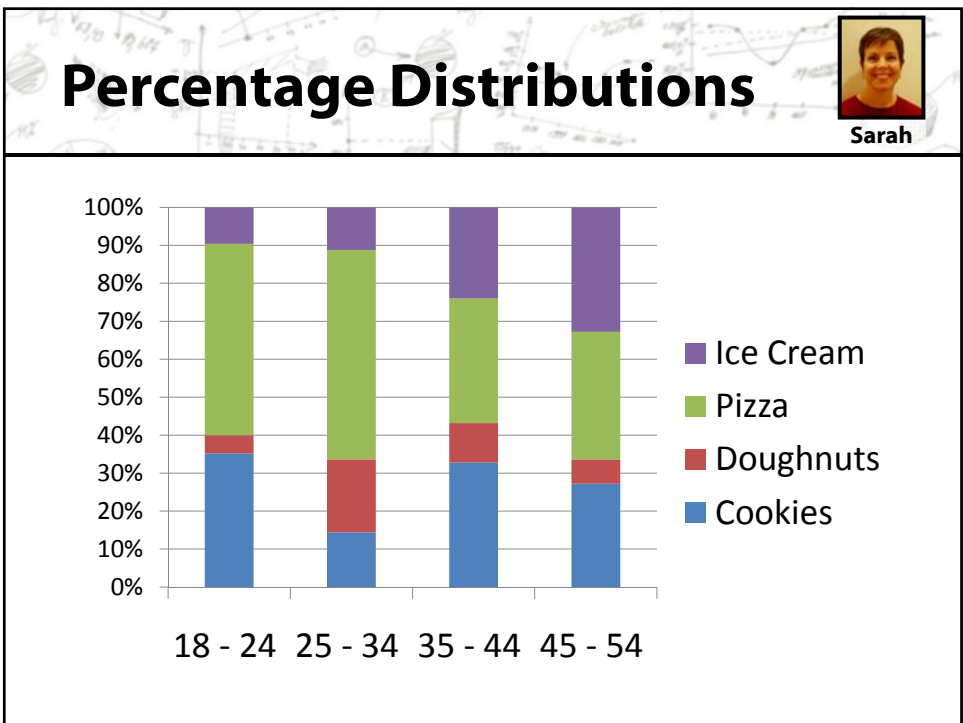

Crosstabs

Sarah

Age Group	Cookies 	Doughnuts 	Pizza 	Ice Cream 
18 - 24	44	6	63	12
25 - 34	18	24	69	14
35 - 44	41	13	41	30
45 - 54	34	8	42	41

Rankings

Sarah

Please rank these in order of deliciousness:

- A. cookies
- B. doughnuts
- C. pizza
- D. ice cream

To tally rankings:

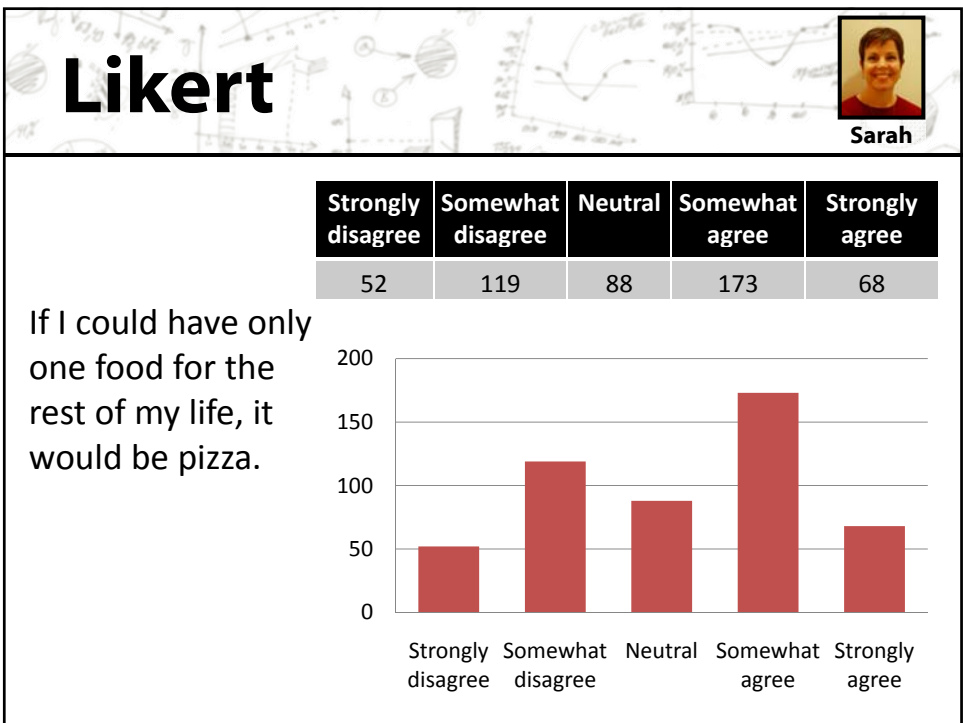

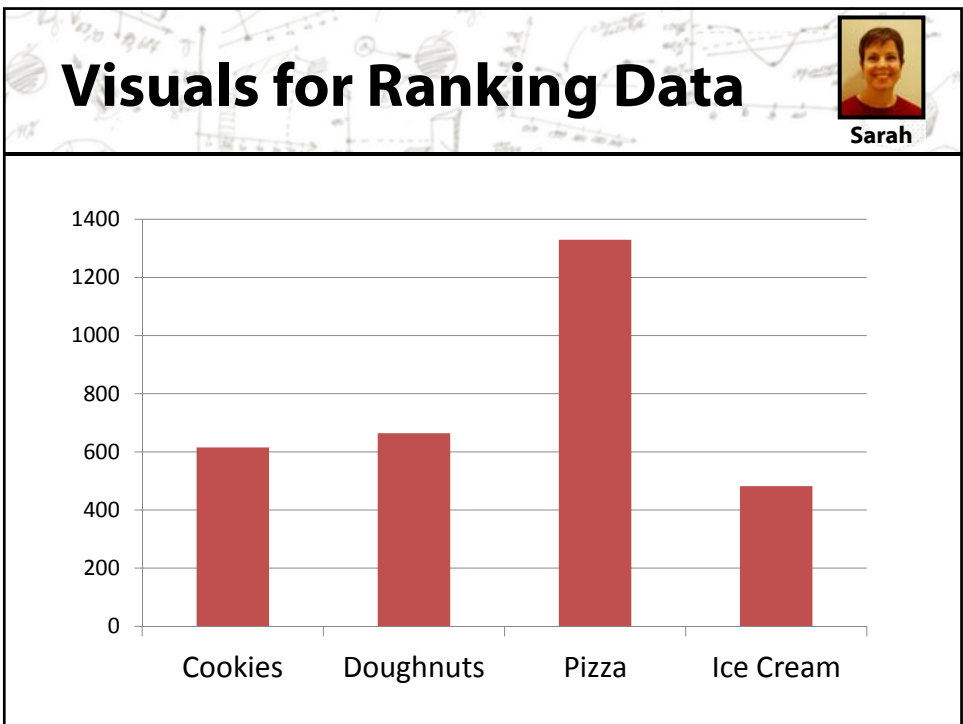

- 1st = 3 points
- 2nd = 2 points
- 3rd = 1 point
- 4th = 0 points

Rankings by Points

Sarah

	Cookies 		Doughnuts 		Pizza 		Ice Cream 	
	#	Points	#	Points	#	Points	#	Points
1st	81	243	96	288	245	735	78	234
2nd	78	156	137	274	208	416	77	154
3rd	125	125	102	102	179	179	94	94
4th	94	0	221	0	103	0	82	0
		524		664		1,330		482

Power of Disaggregation

Sarah

	18 - 24	25 - 34	35 - 44	45 - 54
Strongly disagree	12	18	14	8
Somewhat disagree	17	21	37	44
Neutral	27	18	14	29
Somewhat agree	39	44	51	39
Strongly agree	30	24	9	5

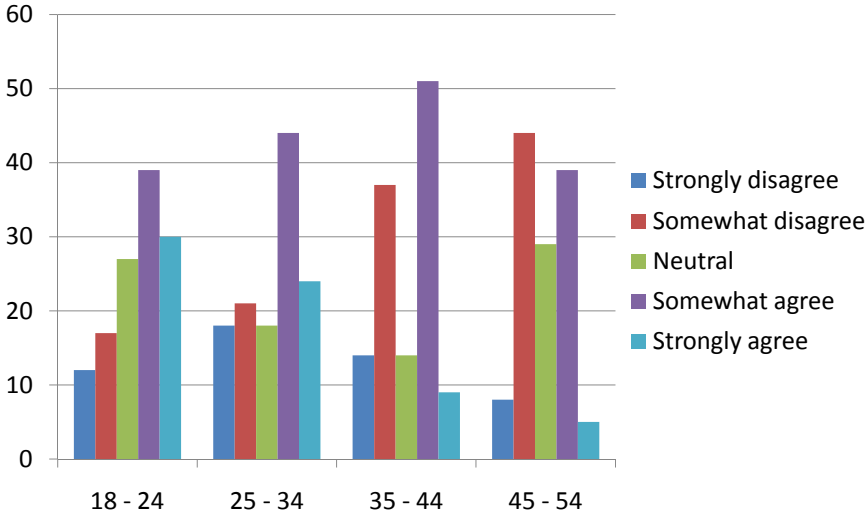

Looking for love in all the wrong demographic subgroups.

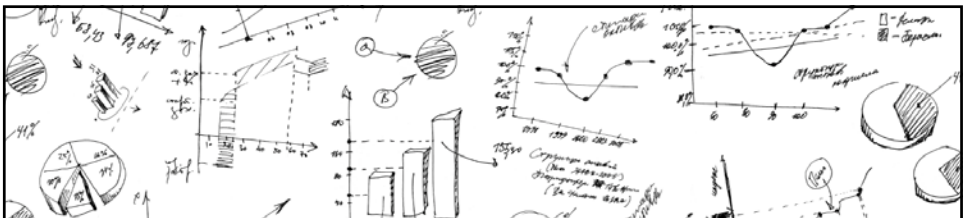

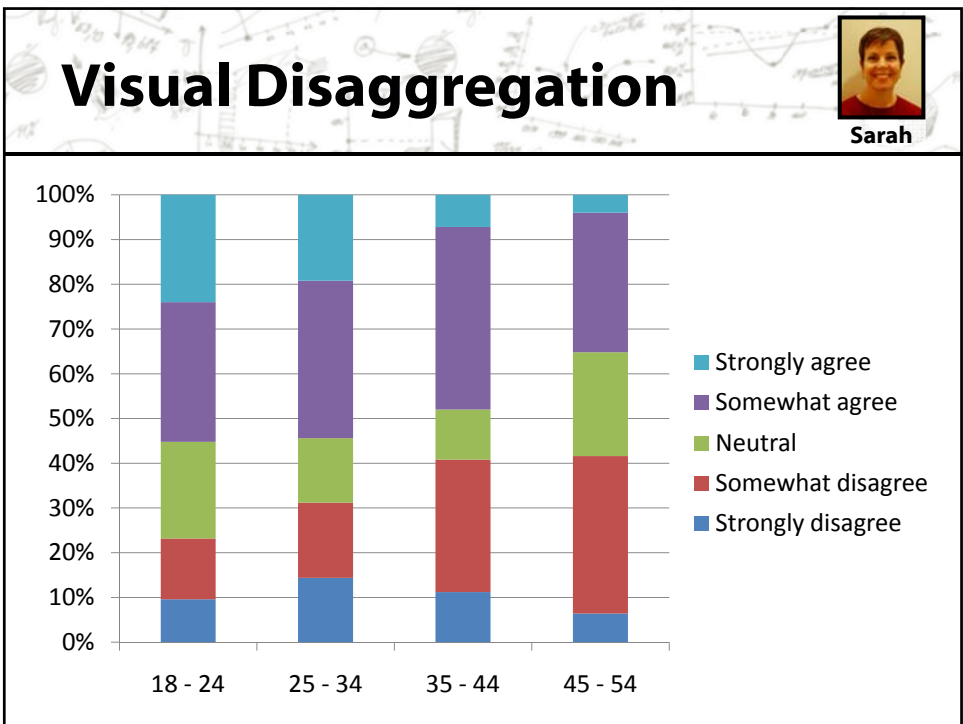

Visual Disaggregation

Sarah

Age Group	Strongly disagree	Somewhat disagree	Neutral	Somewhat agree	Strongly agree
18 - 24	12	17	27	39	8
25 - 34	18	21	18	44	24
35 - 44	14	37	14	51	9
45 - 54	8	44	29	39	5

Qualitative Data Analysis

Stephanie

Qualitative Analysis

Stephanie

You Have...

Stephanie

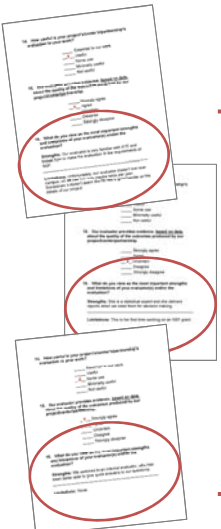

1. Chosen a philosophy (or not)
2. Established research questions
3. Decided how you'd like to talk about your findings
4. Cleaned and typed up your data

Quick and Dirty

Stephanie

Evaluator Strengths

- Our evaluator is very familiar with ATE and knows how to make the evaluation fit the requirements of NSF.
- She is a statistical expert and she delivers reports when we need them for decision making.
- We switched to an internal evaluator, who has been better able to give quick answers to our questions.

Think

14. How useful is your project/sponsor/partnership's evaluation to your work?

- Essential to our work
- Useful
- Some use
- Minimally useful
- Not useful

15. Our evaluator provides evidence about the quality of the outcomes produced by our project/sponsor/partnership.

- Strongly agree
- Agree
- Uncertain
- Disagree
- Strongly disagree

16. What do you view as the most important strengths and limitations of your evaluator(s) and/or the evaluation?

Strengths: We benefited in an internal way. Don't think able to give solid answers to our questions.

Limitations: None.

14. How useful is your project/sponsor/partnership's evaluation to your work?

- Essential to our work
- Useful
- Some use
- Minimally useful
- Not useful

15. Our evaluator provides evidence about the quality of the outcomes produced by our project/sponsor/partnership.

- Strongly agree
- Agree
- Uncertain
- Disagree
- Strongly disagree

16. What do you view as the most important strengths and limitations of your evaluator(s) and/or the evaluation?

Strengths: [he is a statistical expert and she always reports what we need to know]

Limitations: This is her first time working on an NSF grant.

14. How useful is your project/sponsor/partnership's evaluation to your work?

- Essential to our work
- Useful
- Some use
- Minimally useful
- Not useful

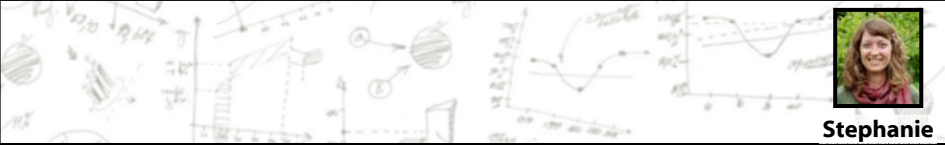

15. Our evaluator provides evidence about the quality of the outcomes produced by our project/sponsor/partnership.

- Strongly agree
- Agree
- Uncertain
- Disagree
- Strongly disagree

16. What do you view as the most important strengths and limitations of your evaluator(s) and/or the evaluation?

Strengths: Our evaluator is very familiar with ATE and how to make the evaluation fit the requirements of NSF.

Limitations: Unfortunatly, our evaluator didn't live their promise. We've see that only maybe half of your questions it doesn't seem like he has a good handle on the details of our program.

Stephanie

Write It Up

Summary statement

Explanation from subcodes

Conclusions

Evaluator expertise was a central strength for ATE PIs and their projects, which should be incorporated into the Evaluator Directory on EvaluATE's website.

However, expertise fell across several areas. Experience with NSF and/or ATE was important to PIs. As one noted, "Our evaluator ... knows how to make the evaluation fit the needs of NSF."

Making Sense of Website Data

Kurt

Poll

Kurt

What is your background with Google Analytics?

- A. I use it once a week.
- B. I use it once a month.
- C. I've used it a few times.
- D. It is linked to our site but I don't use it.
- E. I don't know if it is linked to our site.

Where Do I Start?

Kurt

Search "**Google Analytics Installation Guide**" for step by step instructions.

URL will be on handout.

Evaluation Questions

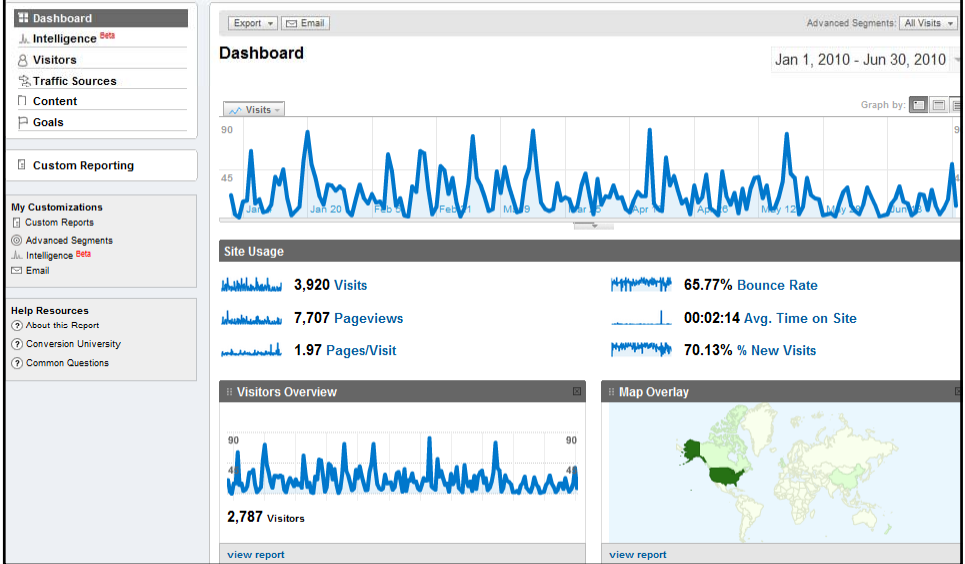

Kurt

1. How many people are we reaching through the web?
2. Are people using our resources?
3. Did our promotion work?
4. How strong are our partnerships?
5. How engaged are people with our content?
6. Where are the people we are reaching located?

Evalu-ate.org Dashboard

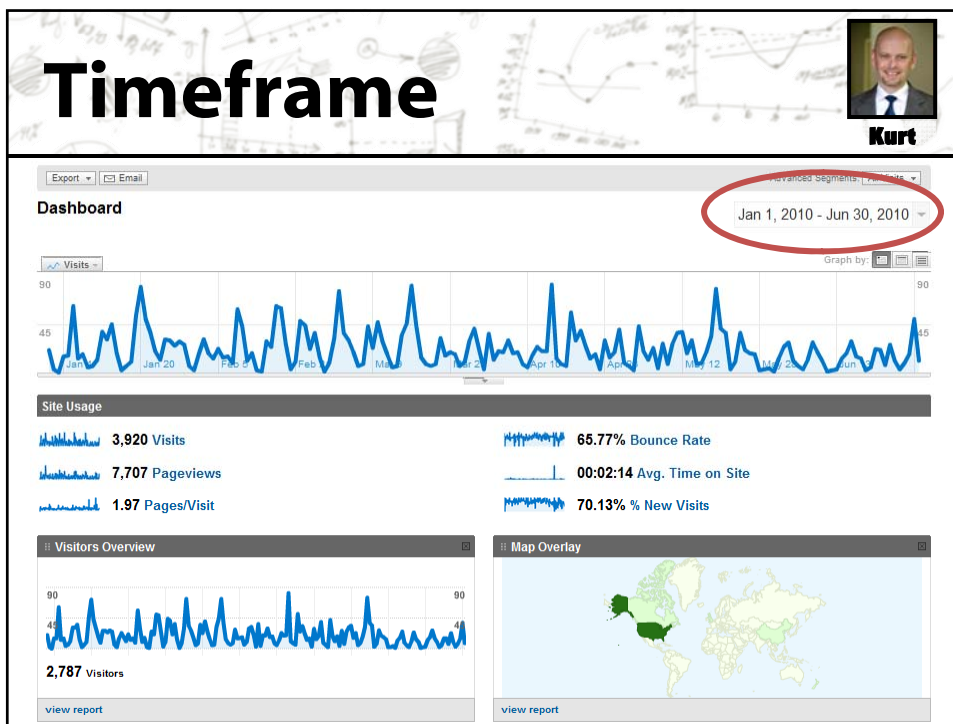

Kurt

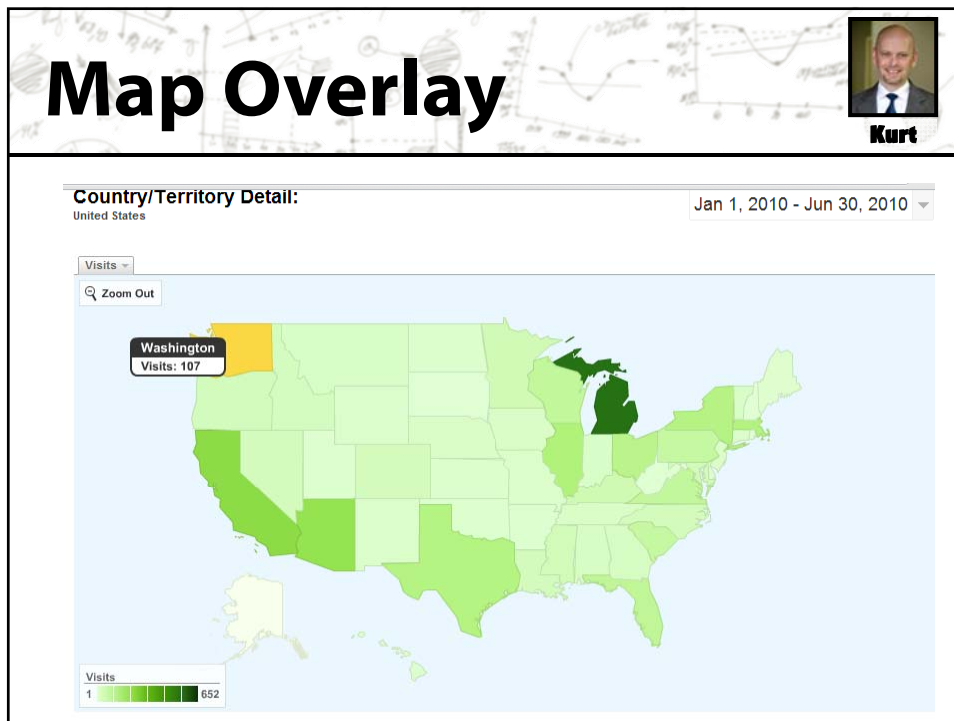

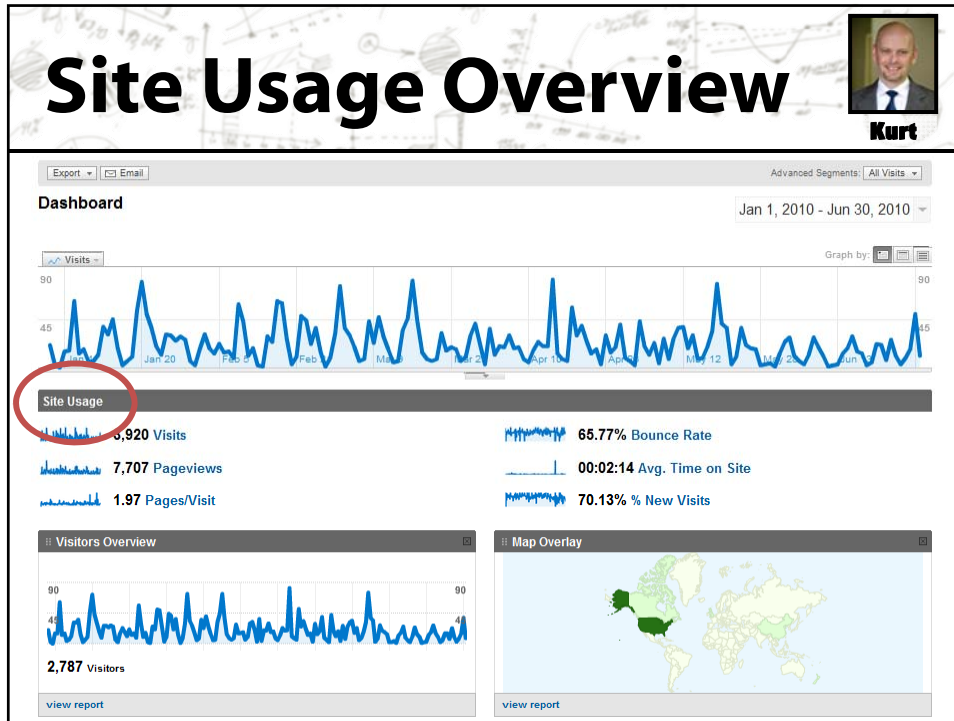

The dashboard displays a variety of analytics for the period of Jan 1, 2010 - Jun 30, 2010. Key metrics include:

- Visits:** 3,920
- Pageviews:** 7,707
- Pages/Visit:** 1.97
- Bounce Rate:** 65.77%
- Avg. Time on Site:** 00:02:14
- % New Visits:** 70.13%

Additional features shown include a 'Visitors Overview' chart with 2,787 visitors, a 'Map Overlay' showing visitor locations, and a sidebar with navigation options like Intelligence, Visitors, Traffic Sources, Content, Goals, Custom Reporting, and My Customizations.
